

16. A European supermarket employs people from a number of countries.
The number of people employed by the company in each country is given in the following table.

Country	Number of employees
Germany	12 355
France	8340
Spain	6860
Italy	4100
United Kingdom	3045

The company is organising a conference and decides to invite a total of 45 employees to represent the views of the entire workforce.

Use a stratified sampling method to calculate how many people from each country should be invited to the conference.
